

CWS-2000-2

Compact Reverse Osmosis Water Filtration System

Key Features

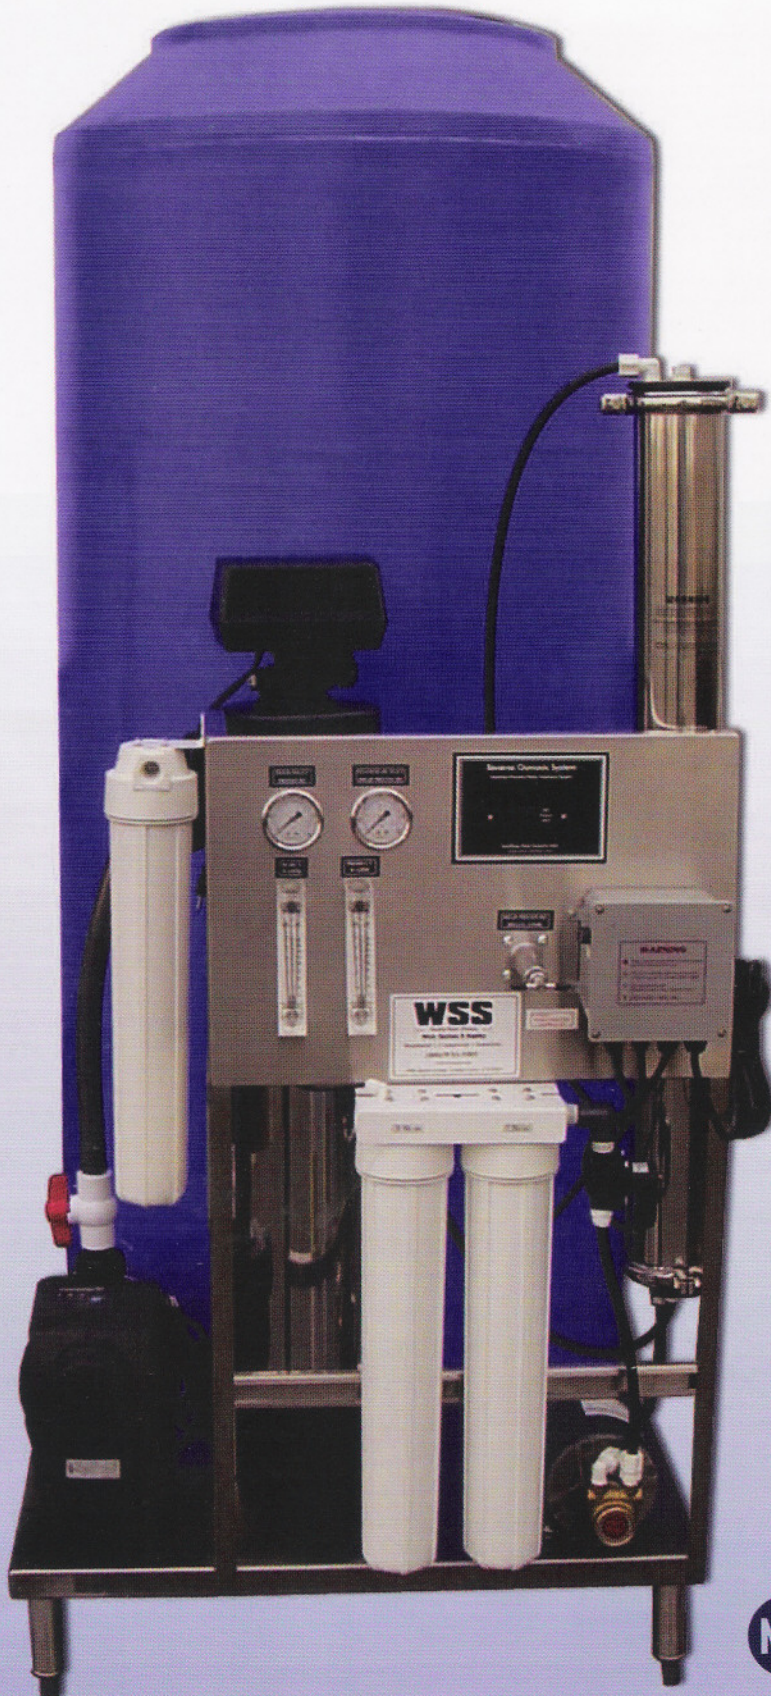

- Stainless Steel Frame
- 3/4 CF Hydro-magnetic Water Treatment
- 20 & 5 micron Sediment Filter
- 1/2 HP GE Motor
- Procon (NSF certified) Pump
- 2000 GPD (TFC Membrane) with S/S housing
- Production and Rejection Flow Meter
- High Pressure Regulator
- Feed Inlet Pressure Gauge
- System Outlet High Pressure Gauge
- 300 Gal Storage Tank
- Low Pressure Switch
- Tank Level Control Float Switch
- 16 GPM Delivery Pump
- 20" Post-Carbon Filter
- UL rated Electrical Control Box

Ideal Applications

- Retail Water Stores
- Pharmaceutical Uses
- Food & Beverage Processing
- Car Washes
- Restaurant & Food Service Industry
- Commercial & Light Industrial

Dimensions

- Skid Length: 36 inches Width: 24 inches
- Storage Tank Diameter: 36 inches
